

# Guillermo Galarza

## Full Stack Web Developer

[galarzaGuillermo.ggm@gmail.com](mailto:galarzaGuillermo.ggm@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

### Summary

Self-motivated **Full-stack web developer** from **Argentina** with a strong foundation in both **front-end** and **back-end** technologies. Graduated from **Henry** Bootcamp with knowledge and practical experience in a variety of programming languages and frameworks. Completed several web development projects as part of coursework and built a number of personal projects to further develop skills. Experience working on agile development teams and collaborating with designers and project managers to deliver successful projects.

### Education

- Henry Bootcamp, Full-stack Web Development.
- Oracle Next Education, Udemy, freeCodeCamp.

### Technical Skills

- Programming Languages: **JavaScript, TypeScript.**
- Front-End Technologies: **React, Redux, Material UI, CSS, Auth0.**
- Back-End Technologies: **Node.js, Express, Sequelize, PostgreSQL.**
- Other Technologies: **Git, GitHub, Agile methodologies.**

### Soft Skills

- **Communication and Leadership:** Demonstrated strong communication skills as a team leader during a group project at Henry Bootcamp, where I effectively delegated tasks, provided feedback, ensured that project goals were met and providing guidance and support.
- **Problem-solving:** Developed creative solutions to technical challenges while working on personal web development projects, including identifying and resolving bugs and implementing new features to improve user experience.

### Projects

- **[Pokédex SPA](#):** This is a React SPA and CRUD application with certain features such as pagination, filtering, sorting, data fetching, responsiveness, etc
- **[E-commerce](#):** This is a group project at Henry Bootcamp built with technologies such as React, TypeScript, Redux, Material UI, Express, Sequelize, among others.
- **[Grover - Landing page](#):** This is a responsive landing page built with semantic HTML5 markup, CSS flexbox, a mobile-first workflow, JavaScript, and Figma.

## Work Experience

### **Full-Stack Teaching Assistant at Henry**

Nov 2022 - Mar 2023

**Teaching Assistant (TA) for students at Henry Bootcamp.**

#### **Main tasks:**

- Coordinate a group of new joining students throughout the whole bootcamp experience
- Guide students in the first steps of the course and clarify their doubts
- Provide assistance in solving exercises and encourage group teamwork (Pair Programming).
- Suggest ideas to improve the Bootcamp processes.
- Promote collaboration and build community within the students.
